12 pigtails in various colors

Overview

12 Color PigtailThe 12-color pigtail is often used in fiber optic patch panels, distribution boxes and outdoor distribution hub Color-Coded Pigtail 12 Fibe.

Key Takeaways

12-fiber pigtails in various colors are available in singlemode and multimode options with LC, SC, FC, or ST connectors, ideal for fiber splicing and high-density network applications.Overview

12-fiber pigtails are short lengths of optical fiber with a pre-terminated connector on one end and exposed fiber on the other, designed for fusion splicing or patching into network equipment. Multi-colored pigtails simplify identification and organization in complex cabling systems, reducing errors during installation and maintenance .

Fiber Types and Specifications
• Singlemode (OS2 9/125µm): Optimized for long-distance transmission with low attenuation .

• Multimode (OM1 62.5/125, OM2/OM3/OM4/OM5 50/125µm): Suitable for shorter distances and high-speed LAN applications .

• Outer Diameter: Standard 0.9mm jacketed fiber for durability and flexibility .

• Length: Commonly 3 meters, but custom lengths are available .
Connector Types
• LC/APC and LC/UPC: Small form factor, ideal for high-density racks, pull-proof design .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• SC/APC and SC/UPC: Push-pull design for quick patching, widely used in telecom and data centers .

• FC and ST: Threaded or bayonet-style connectors for field installations requiring durability .
Quality and Testing

High-quality 12-fiber pigtails undergo rigorous testing to ensure low insertion loss (IL), high return loss (RL), and end-face quality. Many suppliers provide 3D interferometer testing and compliance with industry standards .

Applications
• Fusion splicing in fiber optic networks

• High-density patch panels

• Telecommunications and data centers

• Custom network installations requiring color-coded identification
Purchasing Options

Suppliers like Ecablemart, FS Europe, Fibertronics, and sFiberOptic offer 12-fiber multi-colored pigtails with various connector types, fiber modes, and lengths. Many provide custom specifications and bulk packaging for professional installations . These pigtails are essential for efficient, organized, and reliable fiber optic network deployment, especially in environments with multiple fiber connections.
