ZITHA TECH SPECIALTY CABLES (Pty) Ltd

7360olt optical module

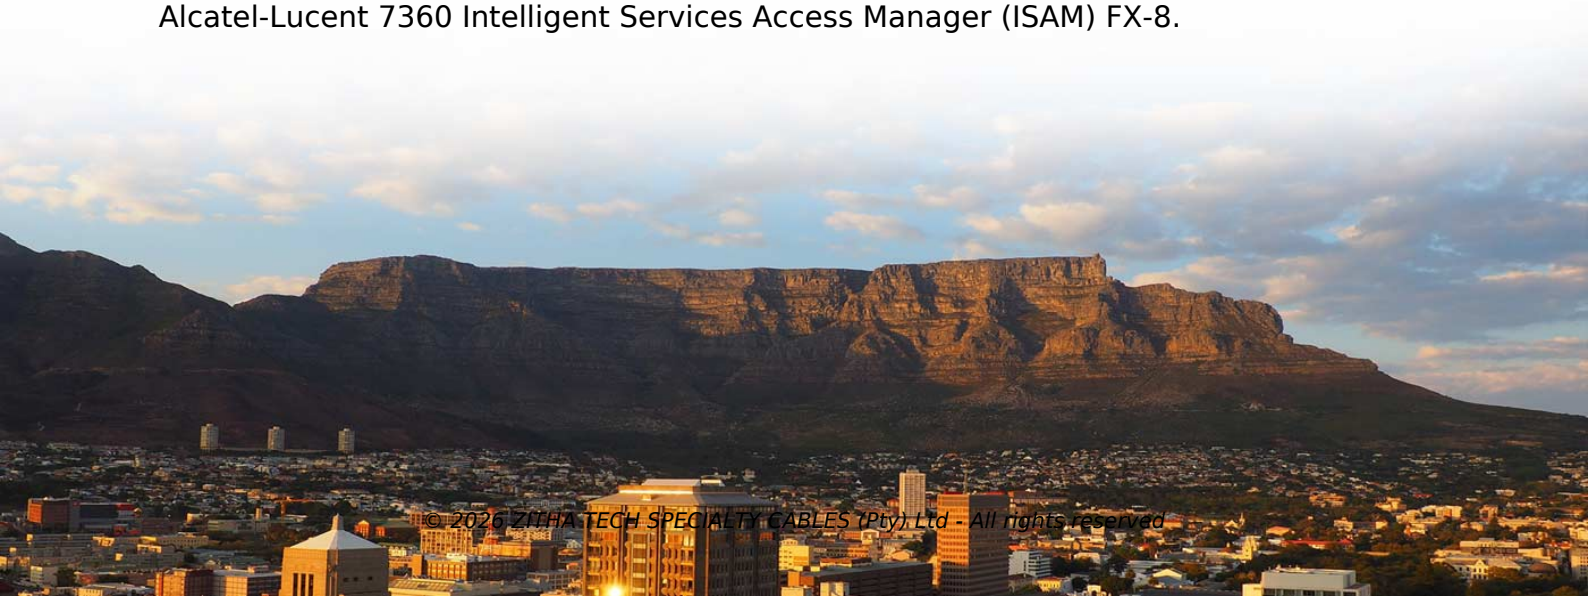

Overview

The Alcatel 7360 is a high-performance GPON OLT board designed for scalable fiber-optic network deployment. It supports up to 16 ports and C+ modules, offering reliable data transmission and easy configuration. FREE delivery May 21 - June 3 to Nashville 37217. Details In stock Usually ships within 2 to 3 days. See more product details Would you like to tell us about a lower price?

Let us know. Product Overview Model: 3FE68954AB. Nokia Alcatel-Lucent 7360 ISAM FX system is a frame-based multi-service access platform, offering high-density fiber connections for multimedia, high-speed Internet access, voice, and business services. It upports a mix of services including VDSL2 with vectoring, point-to-point, GPON, EPON (with. The Nokia 7360 Intelligent Services Access Manager (ISAM) FX is a high capacity access node designed to meet the evolving needs of enterprise Passive Optical LAN (POL). This board is specifically engineered to support GPON (Gigabit Passive Optical Network) technology, which enables the delivery of high speed data, voice, and. This technical whitepaper provides an in-depth analysis of the NOKIA Alcatel-Lucent 7360 Intelligent Services Access Manager (ISAM) FX-8.
