ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Are trough-type cable trays and tray-type cable trays the same

Overview

7 Types of Cable Trays: How to Choose the Right One Unlike ladder or trough trays, channel trays are designed to support small cable quantities over short.

Key Takeaways

Cable trays are a general category of cable support systems, and trough-type cable trays are one specific type within this category.Overview of Cable Trays

Cable trays are engineered support structures used to route, support, and protect insulated electrical cables for power distribution, control, instrumentation, and communication . They provide an alternative to conduit systems, allowing cables to be laid in bundles, which improves accessibility, heat dissipation, and scalability . Cable trays are classified by structural design, which affects ventilation, load capacity, and cable support. Common types include ladder trays, perforated trays, solid-bottom trays, wire mesh trays, channel trays, single rail trays, and trough trays .

Trough-Type Cable Trays

A trough-type cable tray is a continuous rigid structure with a solid or ventilated bottom and side rails, designed to securely support insulated electrical cables . Unlike ladder trays, which have open rungs, trough trays provide more uniform support and protection against dust, moisture, and falling debris. Key features include:

• Solid Bottom: Offers maximum protection for sensitive cables.

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Ventilated Bottom: Allows heat dissipation while reducing weight.

• Side Rails: Contain cables and provide structural strength.

• Modular Design: Enables easy customization and expansion of cable runs . Trough trays are particularly suitable for horizontal runs and environments where minimal cable sag is critical. They are often used in industrial plants, commercial buildings, and areas requiring enhanced cable protection .
Comparison with Other Cable Tray Types
• Ladder Trays: Open rungs allow excellent airflow and heat dissipation, ideal for heavy power cables and long spans .

• Solid-Bottom Trays: Fully enclosed, providing maximum protection and EMI/RFI shielding for sensitive circuits .

• Ventilated Trough Trays: Offer a balance between support and ventilation, suitable for single conductor and Type MV cables where ladder trays are also allowed . In summary, trough-type cable trays are a subset of cable trays, designed for enhanced cable support and protection, making them distinct from ladder or wire mesh trays while still falling under the broader cable tray category .

Article Content

7 Types of Cable Trays: How to Choose the Right One

Unlike ladder or trough trays, channel trays are designed to support small cable quantities over short distances. From

Cable tray ladder, tray and trough structures

Cable tray structure (1) Cable tray is a general term for ladder-type, tray-type, and trough-type cable trays. According to

What is the difference between a cable tray and a trough?

While both serve to group and support cables, a cable tray offers no mechanical protection, whereas a trough is

Cable Tray Systems: A Complete Guide to Types & Installation

Discover the essential guide to cable tray systems. Learn about ladder, trough, and wire mesh types, key

Cable Tray Type Selection

What type of cable tray should be used for the main runs of a cable tray wiring system? The cable tray types to choose from are

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Ladder vs Trough Cable Tray: Selection Guide & Comparison

This article aims to provide you with a detailed comparison and selection guide to help you make an informed choice

Types of Cable Trays

Although channel trays are sometimes referred to as trough trays, another subset of trays are known as trough trays,

Trough Type Cable Tray Guide: Load, Installation & Benefits

A trough type cable tray is a continuous rigid structure used to securely support insulated electrical cables and

Difference: Trough Cable Tray, Solid Bottom Cable Tray, and Cable

Confused about cable management? Learn the differences between Trough Cable Tray, Solid Bottom Cable Tray, and

Types of Cable Trays for Industrial Use

Explore the main types of cable trays for industrial applications, from ladder and trough to mesh and fiberglass designs. Find the best

Cable tray

In the electrical wiring of buildings, a cable tray system is used to support insulated electrical cables used for power distribution,

Cable Conduit vs. Cable Tray: Alternatives To Open Wiring

Two common alternatives to open wiring (types of an enclosed wiring system) are cable conduit and cable tray. Let''s

Cable Tray Dimensions Guide: Standard Sizes, Tray

Standard Cable Tray Dimensions Cable tray dimensions are not chosen at random. Across

Difference Between Cable Tray and Cable Trench | Hutaib Electrical

Read about the differences between cable trays and cable trenches, their applications, benefits, and how Hutaib

Cables Allowed in NEC Tray Applications

Cables Allowed in NEC Tray Applications Cable tray is one of the most common methods of supporting wire and cable. There are

Cable tray manual

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Where cable tray wiring systems with current carrying conductors are installed in a dust environment, ladder type cable trays should

A Comprehensive Guide to Tray Cable

What is tray cable? Tray cable is a widely used type of multiconductor or multipair cable

Cable Tray Type Selection

The only reason to select a ventilated trough cable tray over a ladder type cable tray is aesthetics. No drooping of small cables is

Types of Cable Typically Used in Cable Tray

Types of Cable Typically Used in Cable Tray The purpose of a cable tray system is to support, route, and protect cable as part of the

Types of Cable Trays – Purpose, Advantages, Disadvantages

Cable tray is alternatives to wire ways and electrical conduits, which completely enclose cables. Study types of cable

What are Cable trays? Cable tray materials, Type of

Trough cable tray: Moderately ventilated trays with cable support, available metallic and non

What are Cable Trays & Different Types of Cable Trays

These cable trays feature a perforated bottom and the flat area is used to support the cables placed inside the tray.

Cable Tray Installations Can Be Tricky: Definitions make the difference

Many electrical professionals believe that cable trays are raceways. Based on the definition, this couldn''t be further

Cable Pathways vs. Conduits vs. Trays vs. Pits: A Strategic Selection

Master the differences between cable pathways, conduits, trays, and pits. This strategic guide helps you choose the

Types of Cable Trays: Benefits and Uses

Cable trays are a durable and organized solution for supporting and protecting cable networks in various installations

2021 Changes in the Canadian Electrical Code: Tray Cables

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Rule 12-2202 Insulated conductors and cables in cable trays have significant changes. First is a new Subrule 1) that

Cable Tray Technical Guide A practical guide to product selection

What is a cable tray ? ABB offers a number of different types of cable tray for use in a range of different applications and environments.

The Differences Between Ladder Cable Trays and Trough Cable Trays

While both tray types offer robust support, ladder trays typically handle heavier loads due to their structural simplicity.

Difference Between a Cable Ladder and Cable Tray

A cable tray is a broader term that encompasses various types of cable support systems, including ladder-type trays. It can be

Bus Duct vs Cable Tray: Key Differences & How to Choose

Bus duct or cable tray? Learn which system fits your project and get expert recommendations.

Cable tray

In the electrical wiring of buildings, a cable tray system is used to support insulated electrical cables used for power distribution,

Cable Conduit vs. Cable Tray: Alternatives To Open Wiring

Two common alternatives to open wiring (types of an enclosed wiring system) are cable conduit and cable tray. Let''s

Cable Tray Dimensions Guide: Standard Sizes, Tray

Standard Cable Tray Dimensions Cable tray dimensions are not chosen at random. Across
