ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Brunei Fiber Optic Grating Manufacturer

Overview

List of Fiber Optic Companies in Brunei Darussalam, Suppliers, Distributors, Manufacturers, Importer. Include Dura Sdn Bhd, .

Key Takeaways

Brunei currently has local companies providing fiber optic infrastructure and components, but dedicated fiber Bragg grating (FBG) manufacturing is not reported locally; international suppliers are typically used for FBGs.Local Fiber Optic Companies
• Dura Sdn Bhd – Offers a range of fiber optic products and solutions for end users, contractors, and system integrators in Brunei, including cabling and components .

• Fiber Link Sdn Bhd – Established in 2003, Fiber Link specializes in network installation services, FTTX projects, structured cabling, outside plant cabling, and OTDR testing. They provide fiber optic infrastructure services but do not manufacture FBGs .

• SP Zaiba – Supplies electrical and optical components, including fiber optic products, and offers turnkey solutions for fiber optic infrastructure projects such as design, installation, testing, and maintenance . These companies primarily focus on installation, distribution, and integration of fiber optic systems rather than manufacturing specialized gratings like FBGs.
Fiber Bragg Grating (FBG) Sourcing

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Fiber Bragg gratings are highly specialized photonics components used in sensing, telecommunications, and laser applications. Brunei does not appear to have local manufacturers producing FBGs. Businesses in Brunei typically source FBGs from international suppliers, which can be found through global directories such as RP Photonics, which lists over 40 FBG suppliers worldwide . FBGs are used for:

• Wavelength-specific reflection in optical fibers

• Fiber lasers and cavity mirrors

• Optical sensing for strain and temperature monitoring

• Wavelength division multiplexing (WDM) systems
Recommendations
• For local procurement, contact Dura Sdn Bhd, Fiber Link Sdn Bhd, or SP Zaiba for fiber optic components and integration services.

• For FBG-specific needs, consider international suppliers listed on RP Photonics or other photonics distributors, as these components are not manufactured locally in Brunei.

• Companies can also request custom FBGs from global suppliers to meet specific wavelength, reflectivity, or sensor requirements. In summary, while Brunei has several companies providing fiber optic infrastructure and components, FBG manufacturing is not available locally, and sourcing from international suppliers is the standard approach for these specialized gratings.
