Communication Drop Cable Products

Overview

Browse our optical communication connectivity products designed to help you enable your communication networks.

Key Takeaways

Drop cables are specialized fiber optic cables designed to connect a service provider's network directly to homes or businesses, ensuring high-speed, reliable connectivity for FTTH and last-mile applications.

Overview and Applications

Drop cables serve as the critical link between a distribution network and the end user, delivering high-speed data, voice, and video services. They are widely used in fiber-to-the-home (FTTH), fiber-to-the-premises (FTTP), and broadband networks, supporting both indoor and outdoor installations . These cables are engineered for durability, flexibility, and ease of installation, making them suitable for aerial, underground, or direct-buried deployments . They are also ideal for transitioning between outdoor and indoor environments, ensuring seamless connectivity .

Types of Drop Cables
• Single-Fiber Drop Cables: Contain 1 to 12 loose fibers in a single buffer tube, often used for standard subscriber connections .

• Flat Drop Cables: Designed for compact installations and indoor/outdoor use, sometimes armored for extra protection .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Round Drop Cables: Typically used for FTTH applications, constructed with single-mode fibers and reinforced with dielectric or steel strength members for durability .

• Gel-Free and Armored Cables: Gel-free tubes prevent moisture ingress, while armored designs provide crush resistance and enhanced protection in harsh environments .

• ADSS (All-Dielectric Self-Supporting) Cables: Allow long-span aerial installations without additional support wires, simplifying pole-to-pole deployment .

Key Features

• Durability and Flexibility: Designed to withstand environmental stress, bending, and temperature variations .

• Ease of Installation: Many products feature innovations like FastAccess® technology for quicker fiber access and simplified cable preparation .

• Fire and Safety Ratings: Options include zero-halogen, CPR-compliant, and flame-rated cables for indoor and outdoor safety standards .

• Customizable Lengths and Designs: Suppliers often provide cables in various lengths and can manufacture custom solutions to meet specific project requirements .

Leading Suppliers

• SENTAL Export GmbH: Offers a wide range of drop cables with detailed technical specifications and customizable options .

• Corning: Provides single-fiber and ADSS drop cables with FastAccess® technology for efficient installation .

• CommScope: Supplies indoor, outdoor, armored, and gel-free drop cables suitable for FTTH and broadband networks .

• Webro Cables: UK-based supplier offering bulk drop cable solutions for professional telecom deployments .

• Norden Communication: Global manufacturer of round and flat FTTH drop cables with reinforced strength members .

Conclusion

Communication drop cables are essential for high-performance last-mile connectivity, offering a variety of designs to meet diverse installation environments and technical requirements. When selecting a drop cable, consider fiber count, installation environment, durability, and compliance with safety standards, and consult suppliers for customized solutions to ensure optimal network performance.

ROC™ Drop Cable Assembly with FastAccess® Technology, 900 µm

As an industry leader in optical connectivity products, Corning designs and manufactures the ROC™ drop cable assembly with

Drop Cables | Optical Communications

Designed to deliver high-speed data, voice, and video services directly to subscribers, drop cables ensure

FTTH Drop Optic Cable China manufacturer

Zion Communication is a professional manufacturer of cables and accessories for signal and low voltage

Drop Cable | Optical Communications | Corning

Drop cables are cables that run from the distribution point or cable to the subscriber/user.

Optical Communications Products

Browse our optical communication connectivity products designed to help you enable your communication networks. Easily create a

Cables & Drop Assemblies

Recognizing that no two networks are alike, Clearfield has developed the industry''s widest choice of drop cable solutions – speeding

Fiber Drop Cable Manufacturer

Zion Communication is a leading manufacturer of fiber drop cables for FTTH. Explore our full range of indoor, outdoor,

Aerial Drop Hardware – Allied Bolt
