ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Complete set of auxiliary equipment for optical cable production

Overview

Find auxiliary and complementary machinery for cable and fiber optic manufacturing: handling units, measuring devices, pulling systems, and other equipment. Whether you are looking for pay-offs and take-ups for electrical cables and optical fibers or machines for insulation and extrusion, this is the perfect place for you. Listed here are the best suppliers of extrusion, stranding, jacketing lines, and more for low, medium, and high-voltage cables, as. We offer tailor-made solutions that best meet your actual needs, along with complete factory planning and layout design, covering full-spectrum support from equipment selection and production line arrangement to logistics flow optimization, helping you achieve the dual goals of efficient production. Pay offs of cable production line SUPER MACHINERY is specialized in designing and manufacturing various high-quality wire and cable machine including various types of pay offs. The bobbin has diameter ranges between 16" to 120". Optical fiber and cable manufacturing equipment is designed and made for the production of optical fiber and cable products.
