Distribution box relay bracket

Overview

DIN Holder helps securely mount Relay or WallSwitch on a DIN rail. It can be installed in a junction box, server cabinet, or electrical panel. A sticker set is included to mark which device or circuit the relay controls. While some mount adaptors are made for use with different kinds and models of relays, others are custom made to be compatible with. The JAC 5307211LG010 Distribution Box Mounting Bracket is an OEM-grade component engineered to securely mount the main electrical distribution box (fuse/relay panel) inside the cab of JAC heavy-duty trucks. As a critical structural element, the 5307211LG010 bracket provides a rigid. Our sealed direct wire fuse and relay enclosure products are offered in 2-60 circuit configurations and specifically designed to withstand tough conditions and round the clock operations. These rugged products provide the easy-to-use, off-the-shelf solution that you need to build an economical. Relay accessories are components used alongside relays to enhance their functionality and reliability.
