ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Explosion-proof Non-standard Electrical Distribution Box Factory in Bangladesh

Overview

Explosion-Proof Distribution Box | Safe Power ControlThis explosion-proof distribution box is built for reliable protection in demanding industrial setting.

Key Takeaways

Reliable explosion-proof distribution boxes in Bangladesh can be sourced from international brands like R. STAHL, Pepperl+Fuchs, and CZ Electric, offering certified, durable, and customizable solutions for hazardous environments.

Key Brands and Offerings

R. STAHL provides a wide range of terminal and junction boxes, including standard and custom-made solutions for hazardous areas. Their products are certified for global installation standards and are suitable for ATEX, IECEx, and NEMA-rated environments, ensuring safety in flammable gas or dust zones . Customization options allow adaptation to non-standard sizes and specific industrial requirements.

Pepperl+Fuchs specializes in Ex d (flameproof) and Ex tb (dust-protected) terminal and junction boxes. Their enclosures are made from copper-free aluminum and stainless steel, offering high corrosion resistance, impact strength, and long-term durability. These boxes are suitable for Zone 1, Zone 2, Zone 21, Zone 22, and Class I/II Division 1 hazardous areas, with modular designs for tailored configurations .

CZ Electric Co., Ltd. manufactures explosion-proof isolation switches, safety switches, and MCB distribution boxes. Their products comply with IEC, ATEX, and IECEx standards and have been certified by agencies like TUV, DNV, and CSA. CZ Electric has a global presence and can provide solutions adaptable to non-standard requirements .

Material and Certification Considerations

When selecting explosion-proof distribution boxes, consider:

• Materials: Stainless steel, aluminum, or GRP for corrosion resistance and mechanical strength .

• Certifications: ATEX (EU), IECEx (international), NEMA (environmental suitability), and UL for North American compliance .

• Protection Type: Ex d (flameproof), Ex i (intrinsically safe), or Ex tb (dust-protected) depending on the hazard classification .
Sourcing in Bangladesh

While these brands are international, they often have regional distributors or agents in South Asia. Local electrical suppliers or industrial safety equipment distributors in Bangladesh may import these certified boxes. For non-standard sizes, custom orders can be placed directly with the manufacturers, ensuring compliance with local hazardous area regulations.

Maintenance and Safety

Explosion-proof boxes should be inspected at least annually, or more frequently in high-risk environments, to ensure seals, wiring, and enclosures remain intact and compliant . Proper installation and adherence to certification standards are critical for worker safety and operational reliability. References: R. STAHL, Pepperl+Fuchs, CZ Electric, Hexlonex, Intrinsically Safe Store
