ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Fiber Optic Cable Supply for Smart Buildings in Pingyin

Overview

pingyin-smart-building-fiber-optic-cable-manufacturer. We are your specialist for fiber optic cables and custom cable assemblies. With us, you will rece.

Key Takeaways

For smart buildings in Pingyin, indoor/outdoor fiber optic cables such as OM1–OM5, OS2, direct-buried, duct, and aerial types are recommended, with manufacturers like Prysmian, AngNet, and Zion Communication offering scalable, high-performance solutions.Recommended Cable Types

Indoor Cables:

• Tight-buffered fibers (OM1–OM5) for office and residential buildings, supporting high-speed Ethernet and low-latency applications .

• Fire-resistant LSZH jackets (e.g., FireRes®) for compliance with building safety standards . Outdoor Cables:

• Loose-tube OS2 fibers for long-distance runs and high-bandwidth connections .

• Direct-buried cables with multiple protective layers for underground installation .

• Aerial cables (OPGW) for above-ground deployment, providing lightning protection and structural durability . Specialized Solutions:

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• FlexTube® and FlexRibbon™ technologies for high-density fiber deployment in tight spaces, ideal for data centers and smart building backbones .

• BendBrightXS fibers to minimize bending losses in urban or space-constrained installations .

• Optical Distribution Frames (ODF) and PLC splitters for organized fiber management and efficient distribution within telecom rooms or building floors .
Leading Manufacturers
• Prysmian: Offers indoor/outdoor cables, gel-free designs, and high-density solutions suitable for smart buildings and industrial environments .

• Shenzhen AngNet Technology: Provides one-stop fiber and copper solutions, including FTTR and FTTx deployment options .

• Zion Communication: Specializes in customized fiber optic cables for vertical cabling, drop segments, and harsh environments, with OEM services for smart building projects .

• YOFC: China's largest fiber optic producer, offering ultra-low-loss fibers, multi-core cables, and fast customization for FTTH and smart building networks .
Smart Building Considerations
• Fiber optic infrastructure ensures minimal latency, supporting IoT devices, 8K streaming, cloud computing, and 5G integration .

• Structured cabling with scalable, future-proof designs reduces the need for costly upgrades as technology evolves .

• Proper selection of indoor/outdoor cables, protective jackets, and high-density solutions ensures reliable connectivity, energy efficiency, and tenant comfort . For Pingyin smart building projects, combining high-performance fiber types with trusted manufacturers ensures a robust, scalable, and future-ready network infrastructure.
