ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Fiji Active Optical Cable SFP

Overview

10gtek 10g Sfp Aoc Cable 10gbe Sfp To Sfp Active | Desertcart FijiThe 10G SFP+ AOC Cable by 10Gtek is a 1-meter active optical fiber cable designed for 10G.

Key Takeaways

Fiji Active Optical Cable SFP+ is a high-speed, hot-swappable optical cable designed for 10GbE networks, offering superior signal integrity and extended reach compared to copper alternatives.Overview

Active Optical Cables (AOC) like the Fiji SFP+ are plug-and-play fiber optic cables that connect directly into SFP+ modules at both ends, supporting data rates up to 10Gbps per direction . They are designed for short-range, high-speed data links in data centers, storage networks, and enterprise networking environments . The cables are lightweight, low-power, and compliant with SFP+ MSA standards, ensuring broad compatibility with networking devices such as switches, servers, and routers .

Key Features
• Data Rate: 10Gbps per lane, supporting full-duplex transmission .

• Distance: Typically up to 100 meters over OM3 multimode fiber .

• Connector Type: SFP+ interface with a 20-position connector and active circuitry to reduce signal loss and electromagnetic interference (EMI), .

• Hot-Swappable: Can be inserted or removed without powering down devices .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Enhanced Performance: Provides better bit error rate, improved signal integrity, and superior electromagnetic immunity compared to passive copper cables .

• Compatibility: Works with Ubiquiti UniFi devices and other SFP+ compliant hardware .

• Warranty & Support: Typically comes with a 1-year warranty and lifetime technical support .

Advantages Over Copper Cables

• Longer Reach: Optical fiber allows for greater distances without signal degradation.

• Reduced EMI: Active circuitry minimizes interference from surrounding electronics.

• Lower Power Consumption: Lightweight and low-voltage design reduces energy usage.

• Improved Reliability: Better bit error rate performance ensures stable high-speed connections .

Use Cases

• Connecting data center switches and servers.

• High-speed storage area networks (SANs).

• Short-range 10GbE network links in enterprise environments.

• Situations requiring low-latency, high-bandwidth connections with minimal interference .

Availability

Products like the 10Gtek 10G SFP+ AOC are available for purchase in Fiji through international e-commerce platforms such as Desertcart, with delivery typically ranging from 3–9 business days . All products are sourced from authorized retailers and come with manufacturer warranties. Fiji Active Optical Cable SFP+ provides a reliable, high-performance solution for modern networking needs, combining the speed of fiber optics with the convenience of plug-and-play SFP+ connectivity.
