chemelex® Raychem SB-101-HT high temperature support bracket. Used to fix thermostats, sensors and junction boxes to pipes or cable trays exposed to temperatures up to 600°C. Stainless steel Ex E terminal and junction boxes "Terbox Series", has been developed for installations in hazardous areas 1, 2, 21 and 22 and corrosion areas, for installation of signal and power distribution networks in hazardous areas. Kit includes stainless steel, double extended leg horizontal mount bracket and 2 x M4 & 2 x M6 fixing screws, nuts, washers. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx. We design and manufacture electrical cabinets for areas with extreme temperature conditions, both in high temperature +250ºC and in low temperature -60ºC; ours cabinets are prepared for a high humidity concentration or a very dry environment, with the guarantee that the electrical components will. [Flame-retardant Shell] Ensures high temperature and resistance, with good insulation performance for long-lasting durability. [Easy Installation] Quick and straightforward to install on the rail, saving time and effort. [Versatile Usage] Commonly used in power distribution cabinets, distribution. R.
