ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Indonesia 32-core fiber optic distribution box

Overview

Telexc Fiber Optic Distribution Boxes from 2 to 32 cores. Durable, weatherproof, secure, and easy to install for FTTH & FTTX networks.

Key Takeaways

A 32-core fiber optic distribution box in Indonesia is designed for centralized fiber management, splicing, splitting, and protection, suitable for outdoor and indoor FTTH/FTTx networks.Overview

A 32-core fiber optic distribution box serves as a termination and distribution point for optical fiber networks, connecting feeder cables to drop cables while providing secure splicing, storage, and cable management. It is widely used in FTTH, FTTB, and FTTC deployments to ensure stable transmission and long-term reliability .

Key Features
• Capacity: Supports up to 32 fiber cores, accommodating multiple subscribers or connections .

• Splicing and Splitting: Can integrate fusion or mechanical splices and optionally house splitters (e.g., 116 or 21:8 splitters) for network branching .

• Protection: Typically rated IP65 or higher, providing waterproof, dustproof, and anti-aging protection for outdoor installations .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Material: Commonly made from ABS, ABS+PC, or SMC, offering durability, impact resistance, and temperature tolerance .

• Cable Management: Equipped with splice cassettes, cable management rods, and bend radius control (>40mm) to prevent fiber damage and simplify maintenance .

• Ports: Usually includes 1 port for feeder cables and 2–3 ports for drop cables, with options for wall-mounted or pole-mounted installation .

• Maintenance and Expansion: Designed for easy access, allowing future capacity expansion and efficient fiber organization .

Applications

• Telecommunication networks: FTTH, FTTB, FTTC deployments.

• Data transmission: CATV, LAN, and optical fiber testing equipment.

• Outdoor and indoor use: Suitable for harsh environmental conditions due to waterproof and dustproof design .

Suppliers in Indonesia

• Norden Communication: Offers IP65-rated outdoor fiber distribution boxes for wall or pole mounting .

• PAZ Indonesia: Provides 8–32 core fiber optic distribution panels with SC/UPC and SC/APC adapters, certified by PT. Telekomunikasi Indonesia Tbk .

• Jingkon: Supplies 32-core FTTH fiber optic distribution boxes with integrated splice cassettes and splitter options .

• Fibconet: Offers customizable outdoor fiber distribution boxes with IP65–IP68 protection, suitable for various FTTx projects .

• Alibaba Indonesia: Provides factory-direct IP65-rated 32-core boxes with ABS material and flexible installation options .

Considerations for Selection

• Environmental conditions: Choose IP65 or higher for outdoor exposure.

• Material: ABS for standard conditions, SMC for extreme environments.

• Network design: Ensure compatibility with required splitters, adapters, and subscriber capacity.

• Installation type: Wall-mounted or pole-mounted depending on site requirements.

• Maintenance needs: Look for boxes with easy access and organized fiber management. These 32-core fiber optic distribution boxes provide a reliable, manageable, and scalable solution for modern optical networks in Indonesia, ensuring efficient fiber termination, protection, and distribution.
