ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Installation price of 7 5 cm cable tray

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

The installation price of a 7.5 cm cable tray in the Philippines typically ranges from ₱1,310 to ₱5,300 per standard length, with additional costs for labor and fittings.Material Cost

Cable tray prices vary depending on material, type, and size. For a small tray like 7.5 cm (approximately 3 inches), the cost generally falls at the lower end of the range, around ₱1,310 to ₱2,000 per 2.4-meter section for standard ladder or perforated trays . Materials include galvanized steel, PVC, or wire mesh, with steel trays being more durable and slightly more expensive .

Installation Cost

Installing cable trays requires specialized skills, especially for wall, ceiling, or rack-mounted setups. Labor costs depend on the complexity of the layout, number of bends, supports, and fittings. For a simple straight run, installation may cost ₱500–₱1,500 per tray section, while more complex configurations with multiple supports or junctions can increase the price .

Additional Considerations

• Fittings and accessories: Elbows, tees, and junctions add to the total cost.

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Support structures: Mounting to walls, ceilings, or racks may require brackets or J-bolt kits .

• Ventilation and load class: Heavier cable loads or longer spans may require higher-grade trays, affecting both material and installation costs .

• Maintenance and accessibility: Open ladder trays are easier to maintain, while solid or perforated trays may require more careful installation .
Estimated Total Cost

For a 7.5 cm ladder-type cable tray, including materials and standard installation, the total cost per 2.4-meter section is approximately ₱1,800–₱3,500, depending on material choice, labor rates, and additional fittings . This estimate provides a practical range for budgeting small-scale cable tray installations in residential, commercial, or light industrial settings.
