Jamaica Fire Protection Distribution Box

Overview

CHAPTER 9 FIRE PROTECTION AND LIFE SAFETY SYSTEMSNot fewer than one manual fire alarm box shall be provided in an approved location to initiate a fire alar.

Key Takeaways

Fire protection distribution boxes in Jamaica are available through authorized distributors and fire safety companies that provide sales, installation, and maintenance services.

Key Suppliers and Distributors

•

Safety and Fire Systems Limited – Offers a wide range of fire protection products, including engineered systems and personal protective equipment. They provide installation, servicing, and consultation for fire protection systems in Jamaica .

•

National Safety Limited – Specializes in fire detection, alarm, and suppression systems, including distribution boxes compliant with international standards. They also provide inspection, maintenance, and training services .

•

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Jamaica Fire Equipment Ltd – A family-owned company with over 50 years of experience, supplying fire extinguishers, hoses, reels, and fire alarm systems. They design, supply, and install fire protection systems, including distribution boxes for commercial and industrial applications .

•

Protective Systems & Alarms Ltd – Provides commercial fire safety solutions, including fire sprinkler systems, fire alarms, and distribution boxes. They offer installation, maintenance, and emergency repair services across Jamaica .

•

Brothers Industrial Sales & Services Ltd (BISS) – Offers fire alarm and detection systems, fire suppression systems, and hose reels. They provide installation, servicing, and training for fire safety equipment, including distribution boxes .

Considerations for Fire Protection Distribution Boxes
• Compliance: Ensure the distribution box meets the Jamaica Building Code and NFPA standards for fire protection systems .

• Installation: Professional installation is recommended to guarantee proper integration with fire alarm and suppression systems.

• Maintenance: Regular inspection and servicing are essential to ensure functionality during emergencies. Most suppliers listed above provide maintenance contracts.

• Customization: Depending on the building size and system complexity, distribution boxes may be customized to accommodate multiple circuits, alarms, and suppression zones.
Contact and Consultation

For purchasing or consultation, it is advisable to contact the companies directly to discuss your specific requirements, request quotes, and schedule installation or maintenance services. Many of these companies operate in Kingston and provide island-wide service.

By working with authorized distributors and certified technicians, you can ensure that your fire protection distribution box is safe, compliant, and reliable for your property in Jamaica.
