Latvian Trough Cable Tray Processing

Overview

latvian-galvanized-cable-tray-manufacturing-plant. The PIT Group stands for production, innovation, and technology and is your reliable partner for comp.

Key Takeaways

Latvian trough cable trays are manufactured and processed using modern metalworking techniques to provide durable, customizable cable management solutions for industrial and commercial applications.Manufacturing and Processing

Latvian cable tray manufacturers, such as Eurotray and the PIT Group, specialize in producing high-quality cable management systems using advanced production technologies . The processing of trough cable trays typically involves:

• Material Selection: Steel, stainless steel, or aluminum is chosen for strength, corrosion resistance, and load-bearing capacity .

• Cutting and Shaping: Sheets or strips of metal are cut to size and formed into trough shapes using bending machines and presses.

• Welding and Assembly: Sections are welded or mechanically fastened to create continuous trays, including elbows, reducers, and junctions for complex routing .

• Surface Treatment: Trays are often galvanized, powder-coated, or painted to enhance durability and resist environmental factors.

• Quality Control: Each tray undergoes inspection for dimensional accuracy, load capacity, and finish quality to meet industry standards .

Customization and Applications

Latvian manufacturers provide customizable solutions to meet specific project requirements, including:

• Sizes and Shapes: Trough trays are available in various widths, depths, and lengths to accommodate different cable volumes.

• Load Capacity: Designed for light, medium, or heavy-duty applications, suitable for industrial plants, data centers, and infrastructure projects.

• Special Features: Open designs for ventilation, perforated bottoms for drainage, and modular sections for easy installation and maintenance .

Installation and Support

Trough cable trays in Latvia are designed for flexible installation:

• Mounting Options: Wall-mounted, ceiling-suspended, or floor-laid configurations.

• Integration: Compatible with other cable management systems, including ladder trays and mesh trays.

• Maintenance: Open design allows easy access for cable inspection, replacement, or expansion .

Key Manufacturers in Latvia

• Jeetmull Jaichandlall (P) Ltd.: Offers high-quality trough cable trays with modern equipment and strict adherence to industry standards .

• Eurotray: Provides comprehensive cable management solutions for various industries, including industrial automation and electrical distribution .

• PIT Group: Focuses on production, innovation, and technology for cable assembly and contract manufacturing . Latvian trough cable trays are widely used in construction, industrial, automotive, and infrastructure projects, providing reliable, durable, and adaptable solutions for cable routing and protection.
