ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Meaning of TC in distribution box

Overview

NEC Article 336 is titled "Power and Control Tray Cable: Type TC. " It defines what tray cable is, where it can be installed, where it cannot be installed, how it must be constructed, and how its ampacity is determined. But here is where tray cable does demand a few minutes of your attention: NEC Article 336 is the code section that governs every tray cable installation in the country, and its rules directly affect what you should be quoting. Order the wrong cable type for an exposed run, and your contractor gets. What does TC stand for in Box?
