ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Multimode fiber optic patch cord green

Overview

Laser optimized multimode fiber (LOMMF) with 1. 25mm, small form factor (sff), ceramic ferrule LC fiber cable connectors. Green, zip-cord fiber optic patch cord, 2. 0mm outer diameter, LSZH plenum, ofnr jacket. LC Duplex. Fiber patch cables provide interconnect and cross-connect of applications over data centers, telecommunication networks, and enterprise environments. Pre-terminated cables allow for the implementation of complete plug & play solutions to install even large cabling systems rapidly. Light is contained within the fiber core (total internal reflection) causing the fiber within the patch cord assembly to act as a wave-guide. AR-coated and uncoated fluoride fiber optic patch cables are also available for mid-IR use, solarization-resistant cables for ultraviolet. OM5 Duplex Multimode 50/125 Fiber Patch Cable is a wideband multimode fiber (WBMMF) solution that supports at least four wavelengths in the 850-950 nm range. They are available in multimode (OM1, OM3, OM4, OM5) and single-mode (OS2) fiber types, with a range of SC, ST and LC connectors.

Article Content

LC-LC OM5 Multimode Fiber Patch Cable 1m

This OM5 fiber patch cable meets TIA-492AAAE and draft IEC 60793-2-10 A1a.4 requirements while completely backward compatible with existing OM4 networks and applications.

Multimode Fiber Optic Patch Cables

Thorlabs offers a variety of step-index and graded-index multimode fiber optic patch cables with standard FC/PC or SMA connectors, including square-core fiber.

Fiber Patch Cords | Leviton Network Solutions

Leviton fiber optic patch cords meet or exceed industry standards to make sure you get the performance you expect. They are available in multimode (OM1, OM3,

OM5 Wideband Fiber Optic Cable, LC/LC, Lime Green,

All OM5 cables are multimode duplex with a core size of 50/125 microns. OM5 Fiber cable is compatible and intermateable with OM3 and OM4 cable. Buy high

Standard Multimode Fiber Patch Cables | Multi-mode

We carry many standard fiber optic patch cables available off-the-shelf for operating wavelengths from 250 to 2100 nm. The standard patch cables are available in

Multi-mode optical fiber

Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode links can
