ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Netfo Fiber Optic Switch

Overview

These switches provide flexibility with optional up to six RJ45 Ethernet ports and up to four optical ports, compatible with both multimode (MM) and singlemode (SM) fiber optic configurations. This allows them to be adapted to different networking needs and environments. VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously. We offer solutions that provide seamless transmission and conversion. Fiberswitch 1x2 MM is a compact and flexible fiber switch that enables switching a fiber pair between two different channels, for example between separate sources, networks (red/black), or various destinations such as an additional monitor or projector. Its small size makes it particularly suitable. Mount these Ethernet switches onto a standard 35 mm DIN rail alongside PLCs, relays, and power supplies—they snap in place and stay secure. They connect computers, sensors, and other devices to the same network so they can talk to each other, access the Internet, and provide you with real-time. The global fiber optics market continues its robust expansion, with projections indicating a compound annual growth rate exceeding 10% through 2028.

Article Content

Products

The company independently develops, produces and sells optical communication network products. The company is based on the R & D and production of optical fiber to home (FTTH), optical fiber to

Fiber Optic Network Switches | Ethernet to Fiber

Buy fiber network switches to extend ethernet network over fiber. Order Versitron high speed fiber optic network switches for fiber optic switches application. Our

Fiber Optical Switches – Secure And Reliable Solutions

Our fiber optical switches offer several control options – remote control, control via button switch or both. The signal passes through the switch optically, without any electrical conversion.

Fiber Optic Ethernet Switches | McMaster-Carr

Choose from our selection of fiber optic ethernet switches, including DIN-rail mount ethernet switches, light duty ethernet switches, and more. Same and Next Day Delivery.

netfo Fiber Optic Equipment: Find Top Products

What Are the Best Network Fiber Optics Products? Below is a comparison of leading network fiber optics products based on technical capabilities, supplier reliability, and value proposition:

Fiber Switches

Ethernet Switches with fiber uplink ports or all fiber switches, commercial grade, managed and unmanaged and PoE enabled are all available in this section.

6 to 8 port unmanaged Ethernet to fiber optic switch,

These switches provide flexibility with optional up to six RJ45 Ethernet ports and up to four optical ports, compatible with both multimode (MM) and singlemode (SM)

Noob Question: Consumer Network Switch for fiber optics

On their own, with your plan of a gigabit switch and CAT5E cable, all of your devices will be able to reach the maximum potential of 1Gb/s up/down individually. However, they cannot do this

Fiber Optic Switches, Multiplexers, Demultiplexers

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Shop DigiKey''s large in-stock selection of Fiber Optic Switches, Multiplexers, Demultiplexers. View inventory, pricing and order now for same day shipping!

MikroTik · netFiber 9

A remarkable outdoor switch for setting up an optical 10G network that can even perform some light routing. The spiritual successor to the beloved FiberBox.

Ethernet Switches with Fibre Optic Ports

If a 10/100 switch with fibre ports is required, the Netshield “NSW” range is available in Table top form and gives the potential user an option of whether they want the

How to Setup a Fiber Optic Home Network for MAXIMUM SPEED!

Beginner''s introduction and guide on how to install and set up a Fiber Optic network cable in your home or office. Future-proof your setup, increase bandwidth and get faster, more reliable ...

6 to 8 port unmanaged Ethernet to fiber optic switch,

The EL100-2U series includes unmanaged Ethernet switches with 6/7/8 ports designed for 10/100 MBit/s data transfer. These switches provide flexibility with

Set Up a Fiber-Optic Network in Your Home or Office

Learn about the various fiber-optic components used for running fiber in your house, office, or between buildings. Find out how to use fiber optics for

Fiber Optics : Industrial FO Switches

We offer Industrial Fiber Optic switches with wide range of configurations and features for deployment in industrial environments with high reliability and

Fiber Optic Ethernet Switch with 2 Fiber Ports & 8 UTP

2 Fiber Port + 8 LAN Port Fiber Optic Ethernet Switch – FAQ What is a 2 fiber port 8 LAN port fiber optic Ethernet switch? It is a hybrid Ethernet switch that integrates

Application Guide: Connecting Fiber-ready Network

Application Guide: Connecting Fiber-ready Network Switches Fiber optic cabling is increasingly used to connect network switches and other datacom equipment,

How is Fiber Internet Installed? Everything You Need to

Explore how fiber optic internet is installed in your home, with step-by-step details on cables, ONTs, routers, and what to expect during the appointment.
