ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Optical Cable Longitudinal Cutting Tool

Overview

Professional tool for longitudinally cutting the corrugated copper, Steel or aluminium sheath of optical fibre and other shielded cables. Applicable either at the beginning or in the middle of the cable. With adjustable blade and stationary ratchet, the cable slitter can adjust the cutting depth according to the thickness of the insulating sheath. Quality. WHAT IS ASSURED: Instant protection from purchase of the item, in addition to the manufacturer's warranty/dealer warranty: 2 years worldwide protection against damage caused by drops or falls, operating errors and defects caused by liquids for products in private use. UNINSURED RISKS: The product. KMS-K Longitudinal Cable Sheath Cutter is stored in handy plastic case with wrench for 3mm cap screw removal. The roller is made of hardened high carbon steel, not easy to be deformed, long use time, and the handle is made of fiber reinforced high-strength. The Fiber Optic Loose Tube Slitter is engineered for precise and efficient longitudinal stripping of loose tube fiber optic cables.
