J&HW Group specializes in IP65-rated outdoor power distribution boxes designed for harsh environments such as construction sites, renewable energy projects, and shipyards. Their enclosures feature corrosion-resistant materials, integrated circuit breakers, leakage protection, and options in sheet metal or fiberglass for durability and safety . Kent Stainless manufactures in-ground and freestanding weatherproof power boxes using grade 316L stainless steel, ideal for stadiums, food markets, and temporary events. Their products are fully customizable and built to withstand outdoor conditions while maintaining high-quality standards . JP Power offers compact outdoor distribution boxes for rural low-voltage applications. Their MULTIBOX enclosures can be installed vertically or horizontally, with modular sections for easy maintenance and flexible instrument mounting . Yespan provides wall-mounted and floor-mounted outdoor power distribution panels designed for extreme weather conditions. Their B series is specifically tailored for wall-mounted applications, ensuring safe and reliable energy distribution outdoors . Other Notable Options include FCDB enclosures made from ABS or polycarbonate, offering IP65–IP66 protection, modular capacity, and impact resistance for both indoor and outdoor installations .

Features to Consider
• Weatherproof Ratings: IP65 or higher for protection against dust and water.

• Material Options: Stainless steel, sheet metal, fiberglass, ABS, or polycarbonate.

• Customization: Modular designs, pre-terminated connections, and flexible mounting options.

• Safety: Integrated circuit breakers, leakage protection, and corrosion-resistant construction.

• Applications: Construction sites, events, renewable energy projects, marine environments, and industrial facilities. These manufacturers provide a range of solutions to meet diverse outdoor power distribution needs, ensuring reliability, safety, and durability in challenging environments.
