Price of Invisible Fiber Optic Cable Network Cable

Overview

Home Fiber Kit: Wired Internet Where You Need It Our InvisiLight Home Fiber Kit brings the brilliance of fiber optic technology into your home, empowering.

Key Takeaways

Invisible fiber optic cables typically range from $50 for home kits to several hundred dollars for bulk or specialized cables.Home Fiber Kits

The InvisiLight Home Fiber Kit is a popular solution for discreet in-home networking. It includes 131 feet of ultra-thin single-mode fiber, two Cat6 cables, and media converters for plug-and-play installation. The kit supports up to 1 Gbps speeds and is designed to blend seamlessly along baseboards and corners. On Amazon, this kit is priced around $199–$250 depending on promotions and shipping options . Lightera's official site also lists similar pricing for the same kit .

Bulk Invisible Fiber Cable

For larger installations or custom lengths, FTTH self-adhesive invisible fiber cables are available. These are single-mode fibers with a transparent PVC jacket, typically 1.2mm in diameter, and sold in spools up to 2 km. Prices for these bulk cables vary widely depending on length and fiber grade (G.657A2 or G.657B3), generally ranging from $0.50 to $2 per meter, meaning a 100-meter spool could cost $50–$200 .

Online Marketplaces

Platforms like AliExpress offer a wide range of invisible fiber optic cables at competitive prices. Small lengths or starter cables can start as low as $10–$30, while longer or higher-quality cables may cost $100 or more. Discounts, free shipping, and seasonal sales can further reduce costs .

Summary
• Home kits (with media converters and Cat6 cables): $199–$250

• Bulk invisible fiber cable (per 100 meters): $50–$200

• Small or individual cables via online marketplaces: $10–$100 When choosing, consider whether you need a complete kit for easy installation or just the fiber cable for custom setups, as this significantly affects the price.
