ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Price of U-shaped steel cable trays in Portugal

Overview

We are proud to be one of the world''s leading manufacturers of Stainless Steel Wire Basket & Cable Tray Systems.

Key Takeaways

U-shaped steel cable trays in Portugal typically range from €15 to €50 per meter, depending on material, size, and supplier.Overview

U-shaped steel cable trays are widely used in industrial, commercial, and residential electrical installations for organizing and supporting cables. In Portugal, suppliers such as GroupSumi and Brilltech Engineers offer mild steel and galvanized steel trays designed for durability, corrosion resistance, and easy installation . The trays are available in various widths, heights, and thicknesses, which directly affect the price.

Price Factors
• Material: Mild steel trays are generally less expensive than stainless steel or hot-dip galvanized options. Corrosion-resistant coatings can increase the cost.

• Dimensions: Wider or deeper trays that support heavier cable loads cost more. Standard widths range from 50 mm to 300 mm, with heights from 50 mm to 100 mm.

• Length: Prices are usually quoted per meter. Longer lengths may reduce the per-meter cost.

• Accessories: Supports, connectors, and covers are additional costs that can add 10–20% to the total installation price.

• Supplier and Brand: International brands or specialized suppliers may charge a premium for higher quality or compliance with EU standards (EN 61537).
Typical Price Range
• Mild steel U-shaped trays: €15–€30 per meter

• Galvanized or coated steel trays: €25–€50 per meter Bulk orders or industrial-scale projects may benefit from discounts or negotiated pricing with local distributors.
Where to Buy
• GroupSumi: Offers a wide range of steel cable trays and accessories suitable for indoor and outdoor installations .

• Brilltech Engineers: Specializes in mild steel cable trays with corrosion resistance and precision engineering .

• Local distributors and wholesalers: Many Portuguese suppliers provide custom sizes and U-shaped configurations, often with delivery options.
Recommendations
• Confirm the load capacity and corrosion resistance required for your project.

• Request quotes from multiple suppliers to compare prices and delivery terms.

• Consider accessories and installation costs when budgeting for the total system. By considering these factors, you can select a U-shaped steel cable tray that balances cost, durability, and compliance with Portuguese and EU standards.
