Price of a gigabit fiber optic switch with four electrical components

Overview

4-Port Gigabit Ethernet Fiber Switch, with Two SFP 4-Port Gigabit Ethernet Fiber Switch, with Two SFP Slots (1000M), Without Amazon.com: Fiber Optic Networ.

Key Takeaways

A gigabit fiber optic switch with four SFP/fiber uplink ports typically costs between $120 and $400, depending on features and brand.Overview

Gigabit fiber optic switches with four electrical/fiber uplink components are commonly available in both managed and unmanaged Layer 2 switches. These switches often include:

• 4 Gigabit Combo SFP slots for fiber or copper uplinks, allowing flexible network expansion .

• Multiple RJ45 ports (commonly 8–24) for standard Ethernet connections.

• PoE support in some models, providing power to devices like IP cameras, VoIP phones, and wireless access points .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Layer 2 management features such as VLAN, QoS, and SNMP for traffic control and network security .
Price Range
• Entry-level unmanaged switches with four SFP ports generally start around $120–$180. These are suitable for small office or home networks without advanced management needs .

• Managed switches with Layer 2 features, PoE support, and higher reliability typically range from $250–$400 . These are ideal for SMBs or enterprise environments requiring network segmentation, traffic prioritization, and remote management.

• Industrial-grade or modular switches with four SFP ports may exceed $400, especially if they include ruggedized design, higher PoE budgets, or lifetime warranties .
Considerations

When selecting a switch, consider:

• Port type and speed: Ensure the SFP slots support the fiber type (single-mode or multi-mode) and desired data rate.

• PoE requirements: If powering devices, check the total PoE budget and per-port limits.

• Management features: Managed switches provide more control but cost more.

• Brand and warranty: Reputable brands like Versitron or MEFiberOptic offer lifetime warranties and technical support . In summary, for a gigabit fiber optic switch with four electrical/fiber uplink components, expect to pay $120–$400, with the exact price depending on management features, PoE support, and brand reputation .
