ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Processing of Russian Galvanized Ladder Cable Trays

Overview

This manual is designed to guide workers through the detailed production process of ladder cable trays, including the manufacture of horizontal elbows, tees, crosses, reducing bends, and vertical bends, with emphasis on precision, safety, and quality control. It is a system that facilitates the transportation of cables and ensures that they are neatly arranged according to cable density. What's Involved in Producing Ladder. Cable Tray wiring systems are the more preferred wiring systems, than conduit wiring systems, owing it to their safety, dependability, space and cost. We at KMC, provide our customers with properly designed cable trays which give their wiring systems outstanding dependability for the control. Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply to local and international standards of fabrications and finishes.
