ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Slovenian optical fiber cable silicon tube manufacturer

Overview

Who supplies fiber optic cable in Slovenia?

Manufacturers and Searching for fiber optic cable?

In the business search engine SJN you find products and serv.

Key Takeaways

Fibernet and Optisis are leading Slovenian manufacturers of fiber optic cables, offering advanced solutions that may include silicon tube or specialized protective sheaths.Fibernet

Fibernet is a prominent Slovenian company specializing in fiber optic assemblies and cable systems for private, public, and industrial networks. Their product range includes patch cables, termination cables, special-purpose cable systems, and hybrid cabling solutions. Fibernet's manufacturing line is semi-automated and certified to high Swiss standards, producing up to 23,000 fiber optic connectors per month. They are actively involved in FTTx projects and supply materials to national telecoms like Telekom Slovenije, BH Telekom, and Telekom Macedonia. For production inquiries, you can contact their production manager, Mr. Gregor Kastelic (gregor.kastelic@fibernet.si), or their fiberoptic technical manager, Mr. Sebastjan Gasparic (sebastjan.gasparic@fibernet.si) .

Optisis

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Optisis offers a wide range of indoor and outdoor fiber optic cables, including mini and micro cables designed for FTTx and access networks. Their cables are flame-retardant, halogen-free, and resistant to humidity, with low-friction outer sheaths that optimize blowing performance in micro duct systems. They provide solutions for sub-soiled ducts, direct burial, aerial, and universal applications, and can customize cables for environmental protection, rodent resistance, and steel wire armoring .

Considerations for Silicon Tube Cables

While the web results do not explicitly list "silicon tube" cables, both Fibernet and Optisis manufacture highly flexible, protective fiber optic cables suitable for specialized installations. Silicon tubes are often used in fiber optic cables for enhanced flexibility, thermal stability, and protection against moisture, which aligns with the types of advanced indoor, outdoor, and micro cables these companies produce.

Contact and Procurement
• Fibernet:

• Optisis: https:// For specific requirements such as silicon tube fiber optic cables, it is recommended to contact these manufacturers directly to discuss customization options and technical specifications.
