Stainless steel cable trays are

Overview

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Key Takeaways

Stainless steel is used in cable trays for its exceptional corrosion resistance, strength, and durability, making it ideal for harsh, industrial, and hygienic environments.Key Applications

Stainless steel cable trays are widely used in industrial, marine, offshore, chemical, food processing, and heavy industry environments where durability and resistance to corrosion are critical . They are particularly suitable for areas exposed to moisture, chemicals, salts, acids, and extreme temperatures, ensuring long-term reliability and safety . Common applications include:

• Oil, gas, and petrochemical plants for safe cable routing in corrosive atmospheres .

• Marine and offshore platforms, where exposure to seawater and chloride requires high corrosion resistance .

• Food processing facilities, where hygiene standards demand materials that resist rust and can withstand washdowns .

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

• Rail, nuclear, and heavy industry installations, where mechanical strength and durability are essential .
Advantages of Stainless Steel
• Corrosion Resistance: Stainless steel contains chromium, which forms a passive oxide layer that protects against rust and self-heals if scratched, unlike galvanized steel or aluminum .

• Strength and Load-Bearing Capacity: It can support heavy cable loads without bending or sagging, making it suitable for industrial and data center applications .

• Temperature and Moisture Resistance: Stainless steel maintains dimensional stability under thermal cycling and high humidity, preventing insulation breakdown and electrical faults .

• Long-Term Cost Efficiency: Although the initial cost is higher, stainless steel reduces maintenance, replacement cycles, and operational downtime .

• Hygienic and Chemical Resistance: Grades like SS304 and SS316L resist acids, alkalis, and chlorine-based cleaning agents, making them ideal for food, pharmaceutical, and chemical industries .
Grades and Selection
• SS201: Low-cost option for dry, indoor environments with minimal corrosion risk .

• SS304: Standard choice for most industrial and commercial applications, offering good corrosion resistance .

• SS316L: Premium grade for highly corrosive environments, including marine and chemical exposure .
Summary

Stainless steel cable trays are chosen for environments where corrosion, mechanical stress, and hygiene are concerns. Their durability, self-healing corrosion protection, and ability to maintain structural integrity under extreme conditions make them a preferred solution for industrial, marine, offshore, and food processing applications .

Cable Trays | McMaster-Carr

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Wire mesh cable trays and stainless steel cable trays

Supplier of wire mesh cable trays and wire basket trays in stainless steel for production facilities and the

Kable Kontrol Stainless Steel Cable Tray Bulk Pack – 10 Pcs

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

These stainless steel wire mesh cable trays suspend cables and ensure that your important wires and cables are safely organized

Stainless Steel Trays | McMaster-Carr

Made entirely of 304 stainless steel, including the handles, these tote baskets resist corrosion from washdowns and chemical

Stainless Steel Cable Tray Straight Sections — KABLE

Constructed from high-quality 304 stainless steel, these trays provide exceptional

Steel Cable Tray

Steel Cable Tray Steel Cable Tray systems are Certified CSA Cable Tray, UL listed, and NEMA certified and are available in the

Cable Trays | McMaster-Carr

Corrosion-Resistant Stainless Steel Formable Cable Trays and Fittings The most corrosion-resistant tray systems we offer 29 products

Stainless Steel Enclosures and Cable Management | Electrix

We would like to show you a description here but the site won''t allow us.
