ZITHA TECH SPECIALTY CABLES (Pty) Ltd

Wall-mounted built-in distribution box models

Overview

Electrical Distribution Boxes for Power Distribution | WielandFrom decentralized energy, signal and data distribution to distribution boxes for smart build.

Key Takeaways

Wall-mounted built-in distribution boxes are available in modular, flush, and surface-mounted designs from manufacturers like Eaton, Panasonic, nVent HOFFMAN, and Wieland, offering flexible configurations for residential, commercial, and industrial applications.Eaton xComfort KLV Series

The xComfort KLV series by Eaton offers flush and hollow-wall mounted compact enclosures suitable for residential and small commercial projects. These enclosures come in 1- to 5-row energy distribution cabinets and include multimedia and hybrid options. They comply with IEC/EN 62208, IEC/EN 60670-24, and IEC/EN 61439-3 standards. The modular design allows for easy assembly with Eaton's switching and protection devices, and pre-wired final distribution boards are available for simplified installation .

Panasonic Modular Distribution Boxes

© 2026 ZITHA TECH SPECIALTY CABLES (Pty) Ltd - All rights reserved

Panasonic provides modular distribution boxes with 16- and 32-module base options, suitable for both flush and surface mounting. These boxes are designed for energy distribution and multimedia connections, offering horizontal and vertical expandability. They feature transparent smoke or opaque white covers, a 180° openable cover, and adjustable frame orientation. Made from flame-retardant materials with an IP40 protection rating, they ensure safety and durability while blending with interior design .

nVent HOFFMAN Wall-Mounted Enclosures

nVent HOFFMAN offers a wide range of wall-mounted enclosures under the EPS and MAS series, designed for indoor power distribution panels. These enclosures are made from mild steel with epoxy-polyester powder coating and are available in 600 mm and 800 mm widths. The modular system allows for sub-sectioning, DIN rail mounting, and adjustable mounting plates, making them suitable for small to medium power distribution panels. They comply with IEC 62208 and are regularly audited for quality .

Wieland Distribution Boxes

Wieland provides smart and decentralized distribution boxes for energy, signal, and automation applications. These boxes are designed for pluggable installation and can accommodate MSR technology components. They comply with IEC 61439 and IEC 61535, offering robust solutions for both standard and harsh environments. Wieland boxes are suitable for projects requiring flexible, modular, and climate-efficient electrical installations .

Key Considerations
• Mounting Type: Flush, hollow-wall, or surface-mounted depending on space and aesthetics.

• Modularity: Ability to expand horizontally or vertically and integrate multiple boxes.

• Standards Compliance: IEC/EN 62208, IEC/EN 60670-24, IEC/EN 61439-3 for safety and reliability.

• Material & Protection: Flame-retardant materials, IP ratings (e.g., IP40), and powder-coated steel for durability.

• Application: Residential, commercial, industrial, or smart building automation.
These models provide a range of options for customizable, safe, and efficient power distribution, allowing installers to select enclosures that meet both technical and aesthetic requirements.
