What router should I use for SC fiber optic internet

Overview

For fiber optic internet speeds of 100 Mbps or higher, a router supporting at least 1 Gbps is required. Look for routers with AX or AC designations (Wi-Fi 5 or 6) that support faster speeds than older N standards (Wi-Fi 4). Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. In this guide, I'll rank the best routers for fiber internet based on their performance, features, ease of use, and affordability. Future-proofing improves network longevity since Wi-Fi 6E and Wi-Fi 7 routers. Are you in search of the perfect router for your optical fiber internet connection?

Look no further! In this guide, we'll explore the top options available on the market to ensure you experience blazing-fast speeds and seamless connectivity. Whether you're streaming, gaming, or working from home.
