1. Cable Bahamas (REV / ALIVFibr) Cable Bahamas is a Bahamian-owned telecommunications company with over 30 years of experience in connectivity. They operate ALIVFibr, a fiber-to-home service that has passed over 90,000 homes nationwide, including expansions to Family Islands like Abaco. The company has received multiple Ookla Speedtest Awards for Fastest Fiber Network and Best Mobile Network in the Bahamas, highlighting their high-speed, reliable fiber optic infrastructure. They also operate a wholly owned submarine fiber-optic cable system, ensuring robust international connectivity . 2. BTC (Bahamas Telecommunications Company) BTC is a state-owned provider offering fiber optic and DSL services across the islands. They are known for having the most extensive network coverage, making them a strong choice for both urban and remote areas. BTC provides a range of internet services suitable for residential and business needs, with fiber optic connections that support high-speed broadband . 3. ALIV (ALIVFibr) ALIV, a major telecommunications company, operates ALIVFibr fiber-to-home services and wireless broadband. While ALIV is newer compared to BTC and Cable Bahamas, it has rapidly expanded its network and offers competitive fiber optic solutions for both homes and businesses .

Global Fiber Optic Cable Manufacturers

For businesses or large-scale network projects in the Bahamas, sourcing high-quality fiber optic cables from reputable manufacturers is crucial. Leading global suppliers include:

• Corning Inc. – Pioneer in low-loss optical fiber technology, offering high-performance cables for indoor and outdoor deployments worldwide .

• Prysmian Group – The largest fiber-optic cable manufacturer globally, specializing in submarine and terrestrial fiber networks .

• Superior Essex Communications – Known for sustainable, high-quality fiber solutions, including BEAD-compliant products for government and enterprise projects .

Recommendation

For residential or commercial fiber internet in the Bahamas, Cable Bahamas is generally considered the best option due to its award-winning network, extensive fiber coverage, and local ownership. BTC is ideal for wider geographic coverage, while ALIV offers competitive alternatives with modern fiber-to-home services. For network infrastructure projects, pairing these providers with Corning or Prysmian fiber optic cables ensures high reliability and future-proof performance.
